About EyeSpy Innovations: Founded in 2013, we at EyeSpy Innovations Ltd. are a privately held company, headquartered in Victoria, BC, Canada. Specialists in tracking technologies, we have developed products to continuously monitor the location and trajectory of important individuals, populations at risk, and people with intellectual disabilities who may be prone to wandering or becoming lost. Our devices can also be covertly disguised to track equipment or high-valued assets during overseas shipping and international transport. Used as stationary security units, they can protect and recover valuable merchandise from theft. **For more information, visit eyespyinnovations.com**
